BYLAWS OF THE BOARD

MONITORING PRODUCTS AND PROCESSES

Self-Assessment

The Board must maintain strict adherence to the District's mission and goals. To monitor its own success in achieving its goals, the Board may utilize whatever processes deemed appropriate, including self-assessment and multisource assessments (such as 360-degree feedback). The Board may also engage outside consultants to facilitate the evaluation process.

The objective of such assessment(s) is to monitor Board progress in all areas of Board responsibility, including but not limited to: community leadership in education, setting and ensuring compliance with District goals, allocating community resources appropriately, developing and revising Board policies and maintaining adherence to such policies, selecting and evaluating the Superintendent and promoting collaborative and positive relations with all District staff.

Bylaw adopted: November 18, 1997
Bylaw revision: May 8, 2012
Bylaw removed: August 10, 2021
